

CEM26/HEM70/GEM28 MiniPier (#8040-25) Installation

This MiniPier is for converting a CEM25 tripod for mounting a CEM26/HEM27/GEM28 onto it.

Step 1: Add the bottom half of the minipier extension onto a CEM25 tripod top. Thread the tripod center rod into it to secure the bottom half. Insert tripod tray and tighten the accessory tray to secure the tripod.

Step 2: Add the top half onto the bottom part and secure it using three long screws.

Step 3: Install the alignment peg.
